# Math Certification

Plymouth State University has developed a new Post-Baccalaureate Certification for Mathematics Education based on the critical need in New Hampshire and New England for highly qualified STEM educators at the middle and high school levels.

## About the program

This is an intense 10 month program targeted to prepare highly qualified educators in STEM high need certification areas and support an alternative to students who complete the bachelor's degree in science areas where educator certification options are not available.

## Schedule

### *Fall Semester (three 5 week sessions)*

- Two days in a PDS school
- One day at Plymouth State for in-person coursework
- Two days in year-long placement school

### *Spring Semester (16 week session)*

- Five days in year-long placement school

## Certification Options

- Mathematics Education, 5-8 Certification
- Mathematics Education, 7-12 Certification

## Admission Requirements

- 3.0 or better GPA in undergraduate coursework
- Official transcripts from any/all college level credit
- Three professional recommendations
- Current resume
- Statement of interest
- Passing PRAXIS II scores
- NH Residency Verification form (NH residents only)
- \$75 application fee

## Application Deadline

Students pursuing any of the Post-Baccalaureate Certification options can apply for admission to the upcoming fall semester only.

Fall 2020 - August 1, 2020 Application Deadline
